

restaurantmaid Download Instructions

The file you have downloaded is a compressed file containing all of the software in a ZIP file or compressed form, which first before anything else must be uncompressed or extracted.

After you have downloaded the [RM 2.26 & X-Charge 6.zip](#) file, hopefully you remember what location it is downloaded to.

If you do not remember or paid attention to this, you can easily find the location of this now downloaded file on your PC. Simply go to “Start” > “Search” and doing a search on your whole Computer (usually you designate “My Computer” as a search area). After you find and know the location folder of the downloaded file [RM 2.26 & X-Charge 6.zip](#), go to it through the “My Computer” menu or the “File Explorer” and once you can see this file, right click on it and select “Extract all” from the small menu that will pop out. This will extract the two programs in this same folder where you found the downloaded file and create two new folders in here called “Restaurant Maid 2.26” & “X-Charge 6”.

The “Restaurant Maid 2.26” folder contains the Restaurant Sale software you’ve purchased (the main software for running your business) and you install it by getting in to this folder and running or double-clicking the setup file and following through with the simple instructions. After this Restaurant MAID 2.26 is installed on your PC completely and you can run it from Start > All Programs > Alexandria Computers > Restaurant MAID 2.26 and in addition to get to it faster you can drag it to the desktop to make yourself a shortcut for future reference.

The “X-Charge 6” folder contains the Credit Card processing software you’ve purchased and you install it by getting in to this folder and running or double-clicking the only file located in this folder and following through with the simple instructions.

Now you are all set and ready to take your business to new heights, please read the instruction manuals on all this software to better understand it and learn it quicker.
